I just discovered this amazing gaming website called spigo.com. It has some great games among 3 different styles of Bingo.

All games are free and you play for Spigos.

Spigo.com is an online, multiplayer gaming website. Online games on Spigo.com range from Java-based versions of arcade games and classics such as Chess and Solitaire to Spigo.com specific games such as Parrot and Jungle. The multiplayer aspect of Spigo.com allows players can form teams and clubs. During games, players can chat with another. Players can also sign up to play in different tournaments against other users on the site.
