The story of UK bingo started with a simple card game where players just had one single card divided into three rows and nine columns, organized in the same way as a modern bingo card,UK Bingo gives new players 20 free bingo cards and a 100% match on the first deposit up to £100. Deposits after the first have a 50% match up to £100. Other bingo bonuses that are offered are for refer a friend and those that can be obtained with the loyalty points. These bonuses are not the highest on the net, but they are more than adequate to attract players. The other attraction on the site are the games that are featured daily, weekly or monthly. The site has games with jackpots that are just reasonable to one that is huge to the winning player.
